

ISOBE et al.  
Appln. No. 10/528,373  
Second Preliminary Amendment  
Page 6

**REMARKS**

The specification and Claim 1 have been amended to correct an error which appears in the Japanese PCT application as filed. Thus, the original Japanese PCT application erroneously recites "a substituted or substituted heteroaryl group" in the specification and original claim 1. However, Applicants believe that the above amendments are apparent to a person skilled in the art from the context of the present specification. That is, the specification describes the unsubstituted heteroaryl group at page 8, line 27 to page 9, line 6, in addition to the substituted heteroaryl group at page 9, lines 7 to 24.

Entry and consideration of this Amendment are respectfully requested.

Respectfully submitted,

John T. Callahan
